

About the work:

“Cuentos para Marcel” is a set of two pieces dedicated and composed for my nephew Marcel. Each piece is based on an imaginary tale that includes three animals as the main characters. The elephant, the mouse and the mosquito are the characters of the first piece. The lizard, the rabbit and the ant are the characters of the second piece. The three characters in each tale are depicted by the flute, cello and piano.

Each piece can be played independently or as a group of two in the order indicated.

The work has a total duration of 10 minutes or approx. 5 minutes each piece.

“Cuentos para Marcel” was composed on April 2016 as part of my graduate studies in composition at Florida International University.
